

CGCT-9

The 9th Asian Conference on Crystal Growth and Crystal Technology

June 24 to 26, 2024

Jeju National University, Jeju, Korea

***“There we will reflect on the past 24 years of
the CGCT, share the latest research findings,
and plan for the future of crystal growth and crystal technology.”***

Seung-Min Kang

Conference Chairman, CGCT-9

2024 President, Crystal Growth and Crystal Technology

www.cgct-9.org

Meet Symposia in Various Fields Right Now

- 01 III-V and IV semiconductor: GaN, AlN, InP, GaAs, compound semiconductors etc.
- 02 Power device Crystals: Ga₂O₃, SiC, Diamond etc.
- 03 Oxide and Optical Crystals : CaF₂, LiNbO₃, LiTaO₃ ZnS, etc.
- 04 Ferroic Crystals: Ferroelectric Piezo Superconductor, Multiferroics, etc.
- 05 Crystal Growth Fundamentals and Simulations
- 06 Characterizations: TEM, Synchron, Neutron, etc.
- 07 Energy crystals I : Silicon crystals(photovoltaic), LED, Photoelectronics, Thermoelectric materials, etc.
- 08 Energy crystals II : Battery, Fuel Cell, Electrocatalysts, etc.
- 09 Aerospace & Defense Industry Crystals
- 10 Novel Applications of Crystals: Quantum dot, Nanocrystals, Scintillator, Organic and Biology etc.
- S1 Gemstone & Design Conversions
- S2 Crystal-based Future Applications : Quantum Computing/Communication, Artificial Intelligence (AI), Parts of Semiconductor Equipment, etc.

Complete the Registration at a Discounted Price

	Early	On-site	Requirement of Presentation
Regular	USD 550	USD 650	2 papers
Student	USD 300	USD 350	1 paper

• Fee Includes: Sessions, Conference Kit, Social Programs (Welcome Reception, Banquet), Lunch, Coffee Breaks

Important Dates

Abstract Submission

February

29

March

15

Abstract Acceptance

Early Registration

April

15

Let Your Research Shine at CGCT-9

Submit your multiple abstracts related to various research topics in crystal growth and crystal technology by *February 29*.

Build your new experiences and diverse networks through abstract submissions and presentations at CGCT-9!
